Ping Pong Game Using Java Applet

Date: 28 Dec 2014

About Game:

My first game created using java applet is Ping Pong Game.

Ping Pong Game is of 2 player's game.

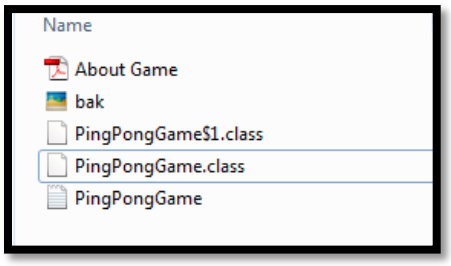
There are 2 paddles which you need to control so that ball can't touch border.

Player1 use left and right keys and player2 use 'W' and 'S' keys to move paddle up and down respectively.

If any player failed then opponent of current player will win.

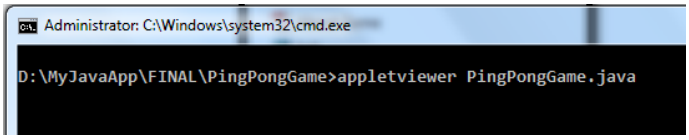
Setup and run:

1. Downloaded zip contains following files as shown in figure 1.



2. Unzip wherever you want and compile and run applet using appletviewer using command Path to unzipped folder> appletviewer PingPongGame.java

   For e.g. in my case



3. Output is as shown below:
